

ELECTRICAL AND COMPUTER ENGINEERING GRADUATE PROGRAMS AT THE UNIVERSITY OF DELAWARE

- * Explore what graduate degrees are offered at UD ECE
- * Learn how a graduate degree can help your career goals
- * Gain insight into the application process
- * Network with UD ECE faculty members and graduate students

Please scan the QR code and complete the interest form.
Based on the interests, virtual information sessions and in-person visits will be scheduled.

RESEARCH AREAS INCLUDE:

- Semiconductor device fabrication
- Nano electronics and photonics
- RF engineering
- Quantum sensing and engineering
- Embedded systems and integrated circuits
- Hardware and software design
- Smart grid and energy systems
- Machine learning and large scale data analytics
- Cybersecurity
- High performance computing
- Signal processing and computational imaging
- Communication systems
